

CLIPSTONE

MORTARLESS STONE VENEER
BY ENVIRONMENTAL STONWORKS®

NO MORTAR

NO MESS

Welcome to the intelligently designed ClipStone®

ClipStone® is a brand new innovative, easy-to-install stone veneer. With simple common tools, you can turn a plain boring wall into an eye-catching, professional-looking stone wall.

Because these are individual stones, you will have added design flexibility unlike many of the stone panels on the market today which can show obvious long seams. ClipStone goes up one at a time, just like traditional stone installed by a professional mason.

Designed so each ClipStone is raised slightly off the wall to allow the wall to breathe while providing a drainage plane in exterior applications.

Mounting clips are embedded within ClipStone so you can securely install onto the wall.

Individual ClipStones help you reduce any waste on your project since individual stones require less cutting.

ClipStone stacks into place one after the other with ease.

Corners are reversible for easy installation

10 Reasons Why You'll Get Attached to ClipStone

1. Work out of your existing Toolbox.

You can transition from siding contractor to stone mason without changing your crew, your tools, or your schedule.

"From siding to stone"

2. Homeowners love the look.

ClipStone is individual stones, not panels. The homeowner gets real stone veneer, adding value and curb appeal to their home.

"Get real stone veneer, added value, and curb appeal to your home."

3. Pocket extra \$.

By installing just 2 squares of ClipStone on your project, you can add up to 89% return on investment, based on current national trends.

4. Save in other ways, too.

There is also less waste, compared to panelized stones, so you save on cost and materials.

5. Build an Impressive Portfolio.

ClipStone is the perfect option to dress up your projects.

Tan LedgeStone

6. You are in and out.

Every contractor knows time is money. ClipStone lets you add stone veneer in a fraction of the time of installing mortared stone.

7. Eliminate callbacks.

Since ClipStone uses a mechanical fastener, you will never need to return to the project to fix a stone that has fallen off.

8. Stop looking at the weather forecast.

ClipStone installs in any temperature or weather condition keeping your project on time and in budget.

9. Peace of mind.

ClipStone's intelligent water management have to worry about many traditional m the only thing left to worry about is whi

"Contractors love the innovative installation, and homeowners love mixing their own colors and styles. Just ask us about our case studies!"

10. The attraction is mutual.

You will love the ease of installation and profitability and your clients will love the many colors, textures, and styles ClipStone offers. Ask us about our case studies.
